

Schieoevers

Overschiese weg, Schiedam, the Netherlands
Commission Public Space, municipality Schiedam
LED light lines, 60 x 120 x 4m.

Light installation consisting of LED light lines located under 4 viaducts at the Schie River next to the train station of Schiedam, the Netherlands. These lines connect the different bridges and are continuous in space to create a more united area. The color is changing every 24 hours. The light installation also replaced the old street lighting.
