

Julianapark Schiedam

Winterlicht, Schiedam 2013, the Netherlands
Blue lasers

PETER VINK

This artwork was shown during the Winterlicht 2013 exhibition Schiedam. At the entrance of the park you enter a straight lane with six trees on both sides. I placed blue laser lights at the trunk of each tree. These laser lines followed the trunks and met above in the sky. Even though the trees are planted in a straight row this artwork showed the different growing directions of each tree.
