

Piushaven Tilburg

Piushaven Lichtfeest, Tilburg, the Netherlands 2013
Green lasers

PETER VINK

This installation lines out the Piushaven in Tilburg. The Piushaven Lichtfeest [Pius harbor light festival] took place in this area. The lasers were placed on the rooftop of an apartment building and in the tower of a church. The laser lines follow the exact contours of the harbor. The lasers marked the whole area where the festival took place.
