

## Stadsdeelhuis Oost

City hall East, Amsterdam, the Netherlands, 2009

16 x 16 x 3 m. paper, mirrorball motors

exhibition: Polderlicht 2009

PETER VINK

Installation specially made for the Stadsdeelhuis Oost building (city hall East District Amsterdam). It was shown during the "Polderlicht 2009" exhibition.

Using mirror ball motors, the long bars (made of paper) were rotated mechanically, creating a dynamic experience.

The white bars found at the ceiling were the inspiration for this piece.
