

Tropen Hotel

Parklicht, Oosterpark, Amsterdam 2017

LED blacklight, aluminium profiles, fluorescent tape, controllers.

17 x 10.5 x 2.10 m.

PETER VINK

Light installation situated on the first floor of the Tropen Hotel in Amsterdam. The entire basic structure of the building is visible in this open space. By the use of a framework of blacklight LED lines on the floor and fluorescent tape on the walls and pillars, a new layout was created in the space. The light lines were controlled by a program that created different patterns and new layouts in the existing space.
