

## Wissehaege

Wissehaege, Eindhoven, the Netherlands 2009

Initiator: Vitalis Woonzorg Groep / SKOR

32 x 3,5 x 0,20 m. polystyrene, paint.

A permanent sculpture attached to the ceiling of the entrance of the elderly home "Wissehaege", Eindhoven, the Netherlands.

The building is situated in a park and so this piece was inspired by the 'age rings' found in the surrounding trees. The organic lines creates a stark contrast to the geometric form of the building and further extends the concept of nature.
